Bio Systems

Author index

Volume 32 (1994)

Almagro, J.C. **32**, 1
Alvarez, F. **32**, 145
Antkowiak, B. **32**, 211

Brinkmann, K. **32**, 211
Busenberg, S.N. **32**, 37

Chen, J-C. **32**, 111
Clegg, J.S. **32**, 83
Conrad, M. **32**, 111

Das, P. **32**, 61
Das, A. **32**, 61

Ferreira, G.M.N. **32**, 183
Findlay, C.S. **32**, 71
Fogel, D.B. **32**, 171

Gilbert, D.A. **32**, 183, 191

Hagan, S. **32**, 195
Hameroff, S.R. **32**, 195
Hammond, K.D. **32**, 183

Jibu, M. **32**, 195
Jiménez-Montaño, M.A. **32**, 1, 11
Joosting, A.C.C. **32**, 191

Lara-Ochoa, F. **32**, 1

Mizraji, E. **32**, 145

Pomi, A. **32**, 145
Pribram, K.H. **32**, 195

Rinast, K-A. **32**, 211

Roy, A.B. **32**, 49, 61

Siemion, I.Z. **32**, 25, 163
Sikder, A. **32**, 49
Stayton, ,.L.C. **32**, 171

Thron, C.D. **32**, 97

Vargas-Madrazo, E. **32**, 1
Velasco-Hernandez, J.X. **32**, 37

Wheatley, D.N. **32**, 83
Woo, C.H. **32**, 93

Yasue, K. **32**, 195

Zheng, L. **32**, 71

BioSystems 32 (1994) 225–226

Bio Systems

Subject index

Volume 32 (1994)

Adaptation; Temporary chaos; Analytic maps **32**, 93

Adaptive landscape; Optimization; Hierarchical structure **32**, 71

Analytic maps; Temporary chaos; Adaptation **32**, 93

Associative memory; Neural network **32**, 145

Asymptotic stability; Testosterone; Time lag; Periodic solutions; Computer simulation **32**, 61

Canonical conformations; Complementary determining regions (CDRs); Immunoglobulins; Hypervariable regions; Molecular recognition **32**, 1

Chou-Fasman conformational parameters; Equivalent codons; Periodicity of genetic code **32**, 25

Co-evolution of mutualism; Commensalism; Invasion parameters; Index theorem **32**, 49

Codon-tree; Genetic code structure; Grammar complexity **32**, 11

Commensalism; Co-evolution of mutualism; Invasion parameters; Index theorem **32**, 49

Complementary determining regions (CDRs); Immunoglobulins; Canonical conformations; Hypervariable regions; Molecular recognition **32**, 1

Compositional frequencies of amino acids; Genetic code periodicity **32**, 163

Computer simulation; Testosterone; Time lag; Asymptotic stability; Periodic solutions **32**, 61

Ecological models; Plant-herbivore interaction; Habitat suitability **32**, 37

Equivalent codons; Chou-Fasman conformational parameters; Periodicity of genetic code **32**, 25

Evolution strategies; Evolutionary programming; Genetic algorithms; Optimization **32**, 171

Evolutionary programming; Genetic algorithms; Optimization; Evolution strategies **32**, 171

Extractable protein; Oscillations; Modulation; Insulin **32**, 183

Genetic algorithms; Evolutionary programming; Optimization; Evolution strategies **32**, 171

Genetic code periodicity; Compositional frequencies of amino acids **32**, 163

Genetic code structure; Codon-tree; Grammar complexity **32**, 11

Grammar complexity; Genetic code structure; Codon-tree **32**, 11

Habitat suitability; Ecological models; Plant-herbivore interaction **32**, 37

Hierarchical structure; Optimization; Adaptive landscape **32**, 71

Hypervariable regions; Complementary determining regions (CDRs); Immunoglobulins; Canonical conformations; Molecular recognition **32**, 1

Immunoglobulins; Complementary determining regions (CDRs); Canonical conformations; Hypervariable regions; Molecular recognition **32**, 1

Index theorem; Co-evolution of mutualism; Commensalism; Invasion parameters **32**, 49

Insulin; Extractable protein; Oscillations; Modulation **32**, 183
